

My User Stories (Telegram)

1. As a user, I want to schedule sending a message at a specific date and time, so that I can plan and send a message in advance without having to be online at that moment.
2. As a user, I want to mark messages as unread so that I can revisit and respond to messages later.
3. As a user, I want to include specific quote in my messages so that I can respond with context.
